

Navid Safahieh

Department of Economics, Mitch Daniels School of Business, Purdue University
+1 (765) 771-0021 · nsafahie@purdue.edu · navidzky.github.io

EDUCATION

Ph.D. in Economics, Purdue University	Expected 2027
M.Sc. in Economics, University of Tehran	2021
B.Sc. in Civil and Environmental Engineering, Sharif University of Technology	2018

RESEARCH INTERESTS

Transportation Economics, Search and Matching, Causal Inference

JOB MARKET PAPER

Matching Ships to Cargo: Directed Search in Maritime Freight Markets

- Directed search model of carrier–customer matching in maritime freight, where a random preparation time before matching (laytime/documentation delays) delivers a unique symmetric equilibrium; solves the planner’s and decentralized problems and simulates comparative statics in market tightness and preparation-time dispersion.

PUBLICATIONS

[Modeling the Accuracy of Traffic Crash Prediction Models](#)

- IATSS Research*, 2022 (with Rashidi, Keshavarz, Pazari, and Samimi). Models forecast accuracy across 31 Iranian provinces using macroeconomic and road-traffic indicators.

WORKING PAPERS

When Outside Options Shape the Labor Market: A Directed Search Perspective

- Directed search model with skilled/unskilled workers and high-/low-tech firms shows how skilled workers’ outside options raise posted wages but can reduce high-tech firm entry, spilling over to unskilled workers through firm composition and wage competition.

[The Heterogeneous Effects of Exogenous Shocks on Public Transportation Demand](#)

- With Kowsar Yousefi and Amir Samimi. A gasoline price shock raised subway usage by roughly 3.9%; usage fell by roughly 42.6% during the COVID-19 pandemic.

TEACHING EXPERIENCE

ECON 252 Principles of Macroeconomics — Instructor, Purdue University Fall 2025, Summer 2025

- Outstanding Teaching Award (Fall 2025); Distinguished Teaching Award (Summer 2025)

Teaching Assistant

Macroeconomics (PhD), Econometrics, Game Theory

2019–2023

Purdue & Univ. of Tehran

FELLOWSHIPS AND AWARDS

- | | |
|--|-------------|
| Bilsland Dissertation Fellowship, Purdue University | 2026–27 |
| Outstanding Teaching Award (ECON 252), Purdue University | Fall 2025 |
| Distinguished Teaching Award (ECON 252), Purdue University | Summer 2025 |

PROGRAMMING AND DATA SKILLS

MATLAB, R, Python, STATA, $\text{\LaTeX}$; structural modeling, numerical equilibrium computation, simulation-based methods, large-scale administrative and high-frequency vessel-tracking data (IMF PortWatch, ArcGIS/API pipelines).
Languages: Farsi (Native), English (Fluent)
